

- Streamline internal communication for increase collaboration
- Track and validate billable time with a push of a button
- Unify access to voice messages and email for improved productivity
- Enhance mobility by allowing attorneys working anywhere – in the office, at home or on the road – to quickly and easily communicate with clients and associates
- Improve reliability of systems for business continuity
- Provide investment protection
- Avoid paying toll charges by routing your call over the internet

One of the difficult issues faced by many law firms today is how to afford and deploy available technology solutions that allows you to streamline communication, assist in tracking billable time, enhance mobility of partners, improve reliability and provide investment protection at the same time.

More Companies are recognizing that IP Telephony is opening the way for new communication technologies and features. Today is the perfect time to upgrade your communication capabilities.

With IP Solutions from Avaya:

- Direct your clients to the right person or department every time.
- Save money immediately and get into the IP Telephony world by routing your calls over the IP network, or migrate to IP over time.
- Track billable time easily and accurately.
- Conduct cost effective meetings with the built-in Meet-me Conference Bridge.
- Be more productive. Turn your home office, or your laptop in your hotel room, into an extension of your desk phone at work.
- Be more available. Use Unified Messaging to access your emails and your voice messages – your emails can be read to you!
- Be more efficient. Unify your voice communications & link all of your sites. Make many locations look like one & administer them from a central location with a Windows-based program.

Call **OBJECTTEL** today at 214-618-8040 and let us help design the right solution for you and your firm!

OBJECTTEL is offering an affordable **ALL-IN-ONE** solution from AVAYA that delivers voice, data and Internet communications.

The Communication Manager from Avaya powers the Media Servers and Media Gateways, available with special financing options, brings you the right tools at the right price to compete in today's difficult business environment.

The Communication Manager extends your communication capabilities beyond your office. It helps you save money by increasing efficiencies and lowering toll charges by routing your toll calls over IP network. The ease of use and accuracy of the Call Accounting System will generate more revenue to your firm. Imagine a business investment that saves money and makes money – both at the same time!

As an Avaya Diamond Business Partner and a Certified Avaya University Training Partner; **OBJECTTEL** delivers business solutions that help our clients *break through the communication barrier!*
